### **EduuXpert – Dynamic School Management Website**

- Designed and developed a dynamic, responsive school management system to simplify administrative and academic processes for schools.
- Built with React.js and Tailwind CSS for a modern, mobile-first user interface.
- Developed feature modules including student management, class & section management, time-table management, exam & attendance tracking, transport, and staff management.
- Integrated interactive dashboards and reusable UI components for better accessibility and performance.
- Showcased pricing plans, client testimonials, and upgrade options to enhance user engagement.
- Implemented a clean FAQ section and contact form for improved user support and lead generation.
- Optimized for SEO, performance, and cross-browser compatibility to ensure scalability.

### **Portfolio Website**

- Personal portfolio highlighting frontend projects, freelance work, and GitHub contributions.
- Built with React.js, Tailwind CSS, and GSAP animations for an interactive user experience.
- Showcases live projects, technical skills, and contact information.

### **ADDITIONAL INFORMATION**
